

We are

LUGERA – THE PEOPLE REPUBLIC

Homeland of Talent

and what we stand for

Our purpose

Since 1996 our purpose is to find for as many people as possible a better paid job. For the more people we do this the more successful we are.

Our policy

We always say 'yes' to our clients, our candidates (both for permanent and temporary staffing), our colleagues, our suppliers and other stake holders. With 'yes' we mean that we always try to find solutions. We are help-driven. We have an attitude of 'yes, we can'.

Our mission

We constantly strive to add value and to increase our ability to add value for our

1. Clients
2. Candidates
3. Colleagues and
4. Stake holders

Star Quality

At Luger we strive for star quality. Being average is just not good enough. Not a single person at Luger will survive when his or her performance is average. Everybody at Luger joined Luger while being committed to reach star quality for two reasons:

1. Personal fulfillment. The level of personal fulfillment is optimal when reaching the stars
2. Our clients, candidates, colleagues and stakeholders deserve nothing but the best

We go the extra mile

We do our job and we seek to do more. Just doing something fine is not good enough. We seek to exceed your expectations. For this we go the extra mile.

Being Star Quality and going the extra mile sounds nice but is tough

We know that real fulfillment, both personal as well as professional, does not come easy. Being awesome means hard and smart work. The good news is that it feels great once you are there. The bad news is that it takes more time and energy than we would like. But it is worth it because our clients, candidates, colleagues and stakeholders deserve the best.

Our tools for all of this are

Permanent Staffing, Temporary Staffing, Salary Administration & TalentBase®
